

Low Impact Development

Stormwater Compliance for Contractors & Developers

3-4:30 pm Friday Feb. 27th
* * **624 C Street, Eureka** * *

Learn about new state regulations for managing onsite stormwater runoff, including:

- An overview of new permit requirements
- Examples of Low Impact Development (LID) practices
- Local LID requirements
- LID-related lessons learned from a contractor's perspective

Presenters include Bob Brown & Sam Polly of Streamline Planning, Justin Boyes, Stormwater Program Manager for City of Eureka, & Scott Miller of Miller Farms.

Get ready for new
requirements
that go into effect
in 4 months!

Developed in partnership between the Humboldt Builders Exchange and the Natural Resources Services Division of Redwood Community Action Agency. Funding for this project has been provided in part through an agreement with the State Water Resources Control Board.

**Space is limited - RSVP by Monday Feb. 23rd
to Maile at maile@humbx.com or phone: 442-3708**
